

SAUMYA NETHMINI

Full-Stack Web Developer / IT PROGRAMMER

PROFILE

01

Final-year BSc (Hons) IT undergraduate at SLIIT and IT Programmer at Octo Global (Pvt) Ltd, where I develop client websites and APIs, fix bugs and grow search rankings for news and gaming sites. I have independently built full-stack applications with React, TypeScript, Node.js and MongoDB, and with PHP and MySQL. My SEO background means the sites I build are fast, secure and easy to find.

EXPERIENCE

02

Octo Global (Pvt) Ltd

IT Programmer

Feb 2026 - Present

- Develop and maintain client websites for news and gaming brands, from new features to ongoing updates.
- Build and integrate APIs that power site content and functionality.
- Diagnose and fix bugs across front-end and back-end code to keep client sites stable.
- Improve search rankings through technical and on-page SEO and backlink building.

SEO Intern

Jul 2025 - Jan 2026

- Built and managed news and gaming websites with WordPress and HTML templates; configured domains, DNS and Cloudflare.
- Carried out on-page SEO (keywords, meta titles, descriptions) and published SEO-friendly news content.
- Raised Google PageSpeed scores to around 80 through image optimisation and performance tuning.
- Tested sites for responsiveness, functionality and security, and monitored them with Search Console.

EDUCATION

03

BSc (Hons) in Information Technology

2023 - Present

Sri Lanka Institute of Information Technology (SLIIT) · Final year

GCE Advanced Level – Physical Science

2017 - 2020

B/Kuda Kusum Balika National School

OTHER PROJECTS

Learning Management System · MERN

Role-based platform for course management and student interaction.

Doctor Appointment Booking · MERN

Responsive system for booking and managing appointments.

Finance Tracker · Android

Mobile app for recording and tracking personal expenses.

Link Shortener · JavaScript

Web app for generating and managing shortened links.

PERSONAL PROJECTS · BUILT INDEPENDENTLY

04

01 Aurevia Interiors React · TypeScript · Node.js · MongoDB

Luxury interior-design portfolio with an admin panel and REST API — JWT auth, Cloudinary uploads, Nodemailer enquiries, before/after sliders and GSAP and Framer Motion animation.

02 Glowelle Beauty Store React · E-commerce

Premium e-commerce site for a Sri Lankan beauty startup — branding, UI/UX and responsive build, with search, wishlist, account, cart and product collections.

03 Gym Management Website PHP · MySQL

Public website plus a secure admin dashboard with full CRUD for trainers, services and plans, booking management, search, statistics and a light/dark theme.

04 Scuba Diving & Training Website PHP · MySQL

Multi-page site where courses, blog posts and dive sites load from MySQL via PDO, with an FAQ accordion and mobile-friendly navigation.

05 Dynamic Cake Bakery Website PHP · MySQL

Database-driven catalogue with category filtering, dynamic product pages and a contact form that saves submissions to MySQL.

06 Cocos Store HTML · CSS · Spring Boot

Multi-page storefront — store, search, account, saved items and bag — served by a Java Spring Boot backend on embedded Tomcat.

07 PawsyBee Pet Shop HTML · CSS · JavaScript

Responsive pet shop and adoption site with showcase cards, detail modals, load-more, testimonials and a custom logo.
