About Me

I am an ambitious and detail-oriented undergraduate student pursuing a Bachelor of Science Honors degree in Information Technology at SLIIT. With a strong foundation in programming languages such as Java, Python, and C++, I am passionate about building impactful mobile and web applications. I enjoy solving real-world problems through code and continuously strive to learn and grow in the fast-paced world of technology.

My goal is to become a skilled and independent IT professional, capable of contributing effectively to innovative projects while gaining hands-on experience in a professional environment. I am particularly interested in mobile app development, UI/UX design, and full-stack development

Technical Skills

Programming Languages

Java, Python, C, C++
